2 COOL EXHIBITS

Cool to the Touch

Touch the cold plate and feel the water temperature of our Arctic and Antarctic tanks!

Recreating the cold sea

You can encounter a wide variety of creatures collected from all over the world. To recreate their natural habitats, the water temperature is kept around 3°C for deep-sea creatures and about 1°C for those from polar regions.

Life of the Deep Sea 2

Snailfish

Antarctic Ocean 3

Antarctic spiny plunderfish
