Note: Closing time is subject to change.

1 Misting System

Misting systems are provided in some areas. Cooling mist will help you stay cool while strolling in the zoo.

3 Snack / Beverage

Icy-cold snack and beverage will help you stay cool.

▲ Shaved ice
320 yen / Sold at Cafeteria and Snack Stand

▼ Melon soda
450 yen / Sold at Snack Stand in West Garden

4 Water Station

Water Station

You can refill your water bottle. Drink enough water to stay hydrated.

5 How the Animals Stay Cool

Animals are cooling off with pools, misters, and cooling fans, as well as frozen treats. Some animals can roam freely between cooler indoor rooms and the outdoor exhibit area, and others may be housed in their sleeping dens earlier than the scheduled. If the animals are in off-viewing area, please understand that they are sheltering from the heat.
