子ども動物園 オてっぱ

I will listen to a talk on guinea pig food.

I will listen to a talk on guinea pig poops.

I will look at a guinea pig poop.

A guinea pig will come next to me.

I will pet the guinea pig's back. I will stroke the guinea pig toward its buttocks.

I will place a sheet on my lap.

I will put the guinea pig on my lap and pet the guinea pig.

The guinea pigs will go home.

I will listen to the wrap-up.

I will pick up my luggage.

I will wash my hand.

## Conclusion

We created a social story for those of you who are new to the Guinea Pig Program for School Groups.

You can enjoy the program with peace of mind by learning about guinea pigs and the procedures and precautions for touching guinea pigs beforehand.

Social Story is mainly designed to support people with developmental disorders (especially autism spectrum disorder), their families and related people; however, it can be used by everyone, including young children and people with disabilities.
